

UC Santa Barbara

College of Engineering Graduate School Preview Day

*For Fall 2010 Underrepresented Minority Applicants To:
Chemical Engineering, Computer Science, Electrical and
Computer Engineering, Mechanical Engineering*

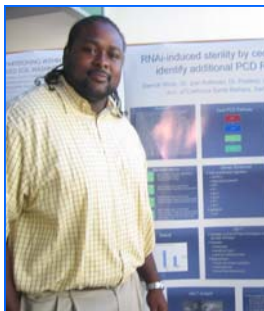

October 23, 2009

Supported by NSF/AGEP, the Engineering Preview Day is open to minority scholars underrepresented in science & engineering doctoral programs: African Americans, Alaskan Natives, American Indians, Latinos/Chicanos & Native Pacific Islanders

Program Highlights:

- Gain a broader understanding of the opportunities and expectations of a graduate education in engineering at UCSB
- Interact with UCSB faculty and researchers from different engineering research areas
- Learn about the intellectual excitement of scientific research and discovery at the doctoral level
- Explore the graduate admissions process, including how to build a strong application package
- Find out more about funding and fellowship opportunities for graduate students
- Be exposed to the diversity and community of UCSB

Attendees should possess a minimum GPA of 3.0 and be committed to pursuing a graduate education in engineering or computer science.

Travel Funding Available!

Travel funding is available, but space is limited. Be sure to meet the deadline for consideration!

DEADLINE TO RESPOND: SEPTEMBER 25TH, 2009

Please include: discipline of interest & contact information
