

2010 Second Annual SDG&E® Engineering & Technology Expo

Tuesday, February 9

(Seminar #5854)

Time:

4:00 p.m. - 7:30 p.m.

(3:30 p.m. check-in. Refreshments and appetizers will be available)

Cost:

No fee

Location:

Four Points by Sheraton San Diego
8110 Aero Drive, San Diego, CA 92123

Pre-registration is required.
(See reverse side.)

Hal Snyder - VP, Customer Solutions

Welcome to the Future of Engineering & Technology!

Learn first hand which jobs SDG&E® hires for and how to best prepare for them. This event will provide you with some key resources that may assist you when planning your educational career. Whether you're a high school or college student this Expo will offer you an excellent opportunity to network with others. There are also three dynamic breakout sessions of which you can take advantage.

Who should attend:

- ▶ High school and college students with a passion for math and science, who may be considering a career in Engineering or Information Technology

What to expect during the breakout sessions:

- ▶ Hear about the latest in energy-efficient technology
- ▶ Learn to write your resume and get the reviewer's attention
- ▶ Get tips on preparing for an interview and how to achieve results

Learn from an expert...

Hal Snyder will discuss renewable energy sources, energy efficiency and how they fit into SDG&E's regional energy plan.

As vice president of customer solutions for both SDG&E and Southern California Gas Company (SoCalGas®), Snyder is responsible

for customer programs promoting energy efficiency, sustainability and low-income assistance at both utilities.

From 2004 through 2007, Snyder was vice president of gas storage, transmission and distribution, managing operations serving more than 6.2 million SDG&E and SoCalGas customers.

From 1998 to 2004, Snyder served in increasingly responsible management positions for Sempra Pipelines & Storage, which develops and operates North American natural gas pipeline and storage facilities, and holds stakes in several South American distribution utilities. Snyder also led Sempra Pipelines & Storage's development efforts in Canada.

(Continued on back)

Sempra Pipelines & Storage is not the same company as the utilities, SDG&E and SoCalGas, and Sempra Pipelines & Storage is not regulated by the California Public Utilities Commission.

This program is funded by California utility customers and administered by SDG&E under the auspices of the California Public Utilities Commission. California consumers are not obligated to purchase any product or service mentioned in this program.

If you have specific questions regarding SDG&E's energy-efficiency programs and related rebates, call SDG&E's Energy Information Center (EIC) at 1-800-644-6133. For information on exhibiting and/or speaking opportunities, please call 1-858-654-3589.

2010 Second Annual SDG&E Engineering & Technology Expo

Prior to 1998, Snyder held a variety of management positions in business development, operations, marketing, engineering and project management for SoCalGas.

Snyder holds a bachelor's degree in civil engineering from California State University Long Beach, and a master's degree in business administration from Pepperdine University.

SDG&E is committed to being an active partner and contributor to the local community.

Yes! I wish to attend:

2010 Second Annual SDG&E Engineering and Technology Expo
 (Seminar #5854)
 Tuesday, February 9, 2010

Location:

Four Points by Sheraton San Diego
 8110 Aero Drive San Diego, CA 92123
