

Community Health Group, a non-profit locally based multicultural health plan, has more meaningful careers that enable you to give back good health to your community! We invite you to apply for the position of:

### **EDI Programmer/Analyst**

The successful candidate will provide technical assistance by working with EDI/Compliance Analysts to create and maintain EDI related systems, applications and documentation. Assist with writing, testing, troubleshooting, and implementing database-driven application programs including Community Health Group web sites. The EDI Programmer/Analyst will also need to have EDI experience with X12 transactions sets 837I, 837P, 820, 834, 835; map ANSI standard transactions with CHG's health management computer system; work with internal users to validate EDI data; collaborate with vendors in resolving issues related to EDI processing; ensure sub-processes for EDI processing are in place; conduct systems administration, upgrades, and maintenance on the server translation software and EDI processing software; maintaining companion guides or other appropriate documentation of the EDI process and practices.

Ideal candidate will have a Bachelors Degree in Computer Science. Two years of experience with EDI systems analysis and design, development and implementation of computer applications in a client-server environment. Knowledge of EDI Mapping, Oracle, Crystal Reports, C# and web based languages such as VB Script, Java, or HTML. Programming knowledge in SQL, Microsoft Access or equivalent relational database management tool, development and maintenance of web-based user interfaces. Hands-on experience with .Net, ASP .Net and SQL is required for this position.

For consideration, please mail your resume to COMMUNITY HEALTH GROUP, Human Resources Department, 740 Bay Blvd., Chula Vista, CA 91910, fax to: (619) 476-3819, e-mail: [hr@chgsd.com](mailto:hr@chgsd.com).
