

Project Engineer

Status: Full Time Employee

Relevant Work Experience: 3+ years or a Construction Management or Electrical Engineering Degree

About the Company

Sprig Electric is one of Northern California's largest and fastest growing, privately owned Electrical Contractors. We have provided exemplary electrical construction services for over 41 years. In fact, Sprig was recognized as Silicon Valley's **Best Places to Work for 2009, 2010, 2011 and 2012!** We specialize in design/build, negotiated, private, commercial, high-tech, biotech and residential projects of all sizes. We have exceptionally strong relationships with the best contractors in Northern California. Our Vision is "To be the best at transforming ideas, expertise and unparalleled service into solutions." Visit our website at www.sprigelectric.com.

Reporting

The Project Engineer will report directly to a Vice President or Group Executive and will take daily direction from a Project Manager.

About the Position

The Project Engineer will assist the Project Manager with subcontractor and supplier purchasing and coordination, submittal review, change order takeoff, cost control, scheduling, building customer relationships and other support functions. He/She will have regular dialogue with the Project Manager, Foremen, Superintendents, vendors and other office staff. The candidate must maintain excellent communications and a strong working relationship with all external and internal contacts while planning, organizing and executing with discipline.

Job Requirements

- Electrical contractor work experience preferred but not required if you have a passion for learning
- Understand take-offs, estimates, work scope, specifications, codes, schedules, subcontracts, materials and construction activities
- Proficient computer skills including Microsoft Excel, Word and Outlook required
- Experience with Microsoft Project, Accubid and Spectrum (or equivalent) preferred
- Possess well rounded verbal, written and math skills
- Ability to work productively and cohesively with estimating, engineering, finance, purchasing, and field operations in a team environment. Maintain a friendly, enthusiastic, cooperative and positive attitude.
- Read and understand electrical drawings and specifications
- Degree in Construction Management or Electrical Engineering advantageous. (Equivalent industry experience is equally considered.)
- Commitment to Sprig's Core Values required.

The Sprig Electric Values and Culture are seen in the way our people think and act.

Our Core Values are the most commonly told stories about our company.

Sprig surpasses competition because of our employees who symbolize our core values.

Compensation Package:

Sprig offers an excellent compensation and benefits package plus a friendly, unique and exciting environment. Salary and benefits are negotiable based on skills and experience.
