Why Choose AECOM? Imagine working for a truly global company whose 45,000 employees share a singular passion: to make the world a better place. We enjoy what we do at AECOM. We bring projects to life in the cities and communities in which we work, and we're driven by a set of values and a common purpose to create, enhance and sustain the world's built, natural and social environments. Innovation is built into every project we manage and every community we serve. We'll provide you support in an environment that allows you to grow and succeed. Come share your passion with us.

About the Business Line **Transportation** We provide professional services in areas such as aviation, transit, freight rail, highways and bridges, planning, and ports and marine. Our global network of top-tier specialists delivers comprehensive services over the full life cycle of a project to benefit clients in government and private industries.

Job Description Provides basic support in the areas of drafting, engineering and project management. Activities may include preparing CADD drawings, performing engineering calculations and assisting the project manager in administrative duties. May be a college engineering student or new college graduate. Experience with Microstation CADD software is preferred. This is a part time variable hour position.
