- Apply immediately by going online at www.jackinthebox.com/careers. Please have a resume ready to upload.
- Hurry! We'll be reviewing resumes and interviewing throughout the month of August and September 2012, but these openings fill up fast, so don't wait!
- All unpaid internship opportunities require that you can get course credit, so do your research at your school to make sure you're eligible.

Corporate Communications Internship (unpaid)

Jack in the Box is looking for interns to join the Corporate Communications department. In this internship you will have the opportunity to gain experience in writing and editing news articles for both internal and external audiences. You will be responsible for conducting interviews and writing engaging stories about company initiatives, events, products and human interest. This internship opportunity may also have you draft press releases and respond to media inquiries, assist with investor conference calls and annual shareholders meetings, and work with the video crew to create news stories for employees. You will also gain exposure to the various functions of a corporate communications department in addition to learning how to produce events that engage employees in the brand and mission of the company.

The preferred areas of education are Communications, Journalism, Public Relations or comparable degree.

Video Communications Internship (unpaid)

This internship will familiarize you with the day-to-day operations of an internal video communications department and have the opportunity to perform a variety of production tasks including obtaining hands-on experience in camera operations, audio production, and video editing. You will also perform many of the same tasks as the department staff such as setting up for productions and attending production meetings. In the internship, you will be responsible for projects during all phases of production, which includes set up of equipment and observation and work on non-linear editing system with supervision. You will also have the opportunity to observe and perform audio engineering duties.

The preferred areas of education are Television, Film, New Media Production, Communication or comparable degree.

PSQE Internship (unpaid)(Product Safety Quality Excellence)

In this role you will partner with analysts in documenting technical issues and authoring documents in our knowledge base. You will participate in different aspects of product evaluation, including physical analysis, cook and hold tests and packaging evaluations. You will perform aseptic collection of microbiological samples and create report for product managers, microbiologists and QA coordinator by compiling, recording and calculating data as well as assist in chemical testing and in receiving and storage of arriving samples of food items.

The preferred majors of study are Food Science, Nutrition, Biology, Chemistry or comparable degree.

I.T. Innovation Internship (unpaid)
