

Northrop Grumman overview for campus/career center partners.

Partner with us to **get your talent noticed.**

Why Northrop Grumman?

Because a career at Northrop Grumman will touch virtually everything we do. From equipment that protects our men and women in uniform, to satellites that predict climate change, our employees are active contributors to our mission.

We don't work here just for the advanced technology and equipment: we work here because we know what - and who - we're protecting. If your students are selected to be a part of the Northrop Grumman team, they too will be responsible for securing the world.

You've worked diligently to prepare your students for that first career move. We'd love the opportunity to help them translate their academic investment into pride at Northrop Grumman: pride in what they do, pride in why they do it, and pride in the company that stands with them.

We Recruit Top Talent

Northrop Grumman actively recruits at universities across the United States to match high potential students of all grade levels and entry-level graduates with current and future business needs across our organization. We have immediate needs for your students with active Secret or Top Secret security clearances!

Intern and Co-op Opportunities:

- Full-time or part-time
- Students must be currently enrolled in a relevant accredited college/university degree program pursuing a Bachelor's, Master's, or PhD

New Graduate Opportunities:

- Full-time, with both direct position or rotational program options
- Students must be within 12 months of their graduation date from a relevant accredited college/university degree program pursuing a Bachelor's, Master's, or PhD

Help Your Talent Get Noticed

In order to be considered, interested students must apply to one of the following requisitions via the Students and New Grad portal located on our Careers page, [here](#).

Discipline	Intern/Co-op Job ID	New Graduate Job ID
Aerospace, Mechanical, Civil Engineer	13001016	13001017
Business, Finance, Supply Chain	13001018	13001019
Cyber Security	13001036	13001037
Electrical Engineer	13001038	13001039
Industrial/Manufacturing Engineer	13001040	13001041
Information Systems/Assurance	13001042	13001043
Software Engineer	13001044	13001045
Systems Engineer	13001046	13001047
Other Technical	13001048	13001049
Other Non -Technical	13001050	13001051

For your students to stand out, they must have:

- Minimum overall GPA of 3.0
- Prior relevant internship or research experience
- Demonstrated leadership and teamwork capabilities
- Ability to effectively articulate technical challenges and solutions
- Ability to obtain a US government issued security clearance

Campus interviews will be set up through your Career Center system to meet with students. If campus interviews are not possible, we will be contacting students for phone interviews.
