

## Campus Tour

Accelerating Your Innovation and Discovery. Today.

100+ Universities  
in the U.S. and Canada  
September 2012- June 2013

Explore how you can accelerate your research with the latest technologies and teach your students to “do engineering” using NI industry-standard tools.

### Featured Demonstrations for Educators, Researchers and Students

Measurements With NI myDAQ and NI miniSystems

Circuits and Electronics With NI ELVIS

Controls and Mechatronics With NI CompactRIO

Communications With NI USRP™

RF and Microwave Design

Structural Monitoring

Power Electronics

Active Suspension

Experience the latest technologies for teaching, research, and student projects.

SDSU

Tuesday 04/30/2013

9:00AM-3:00PM

in front of the Engineering Building
